

**NOTICE OF PUBLIC MEETING**  
**GREAT RIVER ENERGY**

**FACILITY NAME:**

Stanton Station – Permit 0043 – Bottom Ash Landfill

**BACKGROUND:**

Great River Energy will hold a public meeting to discuss the Assessment of Corrective Measures conducted for the Bottom Ash Landfill at the former Stanton Station (located approximately four miles southeast of Stanton, North Dakota). The Assessment of Corrective Measures was published on November 21, 2022, and is available on Great River Energy's publicly accessible CCR website (<https://ccr.greatriverenergy.com/home/bottom-ash-landfill>), in conformance with the requirements of the North Dakota Department of Environmental Quality's rule entitled *Disposal of Coal Combustion Residuals in Landfills and Surface Impoundments* (North Dakota Administrative Code 33.1-20-08).

**PUBLIC MEETING DETAILS:**

Date and Time: Thursday, February 5, 2026, 5:30 p.m. – 7 p.m.

Location:

Mercer County Government Center  
1021 Arthur Street  
Stanton, ND 58571

The objective of this meeting is to present the findings of the Assessment of Corrective Measures and related investigations conducted in accordance with applicable environmental regulations. Arsenic has been detected above the groundwater protection standard in groundwater on Great River Energy property near the Bottom Ash Landfill. Monitoring has confirmed the arsenic remains contained on site. The meeting will review groundwater data and the work completed to evaluate appropriate response options.

The meeting will consist of a presentation by Great River Energy, followed by an open house discussion period during which attendees may ask questions or provide feedback.

Following the meeting, Great River Energy will post a recording of the presentation and accept written comments via email at [GReEnv@greenergy.com](mailto:GReEnv@greenergy.com) from February 5, 2026, through March 7, 2026.

Individuals requiring reasonable accommodation for participation should notify Great River Energy at [GReEnv@greenergy.com](mailto:GReEnv@greenergy.com). Requests should be made as soon as possible and at

least seven (7) days prior to the scheduled meeting. You may be contacted by someone from Great River Energy to discuss your needs. Any additional questions or comments concerning the public meeting may also be directed to this email address.

A copy of this Public Notice has been provided to the North Dakota Department of Environmental Quality and is posted on Great River Energy's website at <https://ccr.greatriverenergy.com/home/bottom-ash-landfill/>.
